

entrée.EDI

Use the Power of the Internet for entrée Communications with Vendors & Customers

The **entrée.EDI**, Electronic Data Interchange add-on module software, will allow you to communicate with widely used technology for the automated exchange of documents between NECS **entrée** and dissimilar applications.

It allows you to electronically exchange purchase orders, invoices, advance ship notices and other business documents directly from your **entrée** software.

Proven advantages are fewer errors, lower administrative costs, and faster order-to-cash cycles.

Please review the “Features” in this document to see examples of the existing specialty EDI formats that NECS has produced for our customers.

Please contact the NECS Sales Department with questions about the special requirements of your business.

entrée.EDI ELECTRONIC DATA INTERCHANGE

- ✓ Lets your NECS entrée system directly communicate with your vendors and customers
- ✓ Fewer errors
- ✓ Lower administrative costs
- ✓ Faster order-to-cash cycles
